

Emburse Pay

A suite of global payment solutions, encompassing invoice payments, card issuing and employee reimbursements.

Waiting to automate payments will cost you more than you'd expect. Duplicate or late payments drive up operational costs. Manual processes and payments put you at risk of fraud. And disparate systems lack visibility which limits your ability to optimize spend.

Enable smart spending

- Gain massive savings and efficiency with a centralized vendor payment solution.
- Leverage real-time data visibility to optimize working capital and guide smarter spending.
- Issue virtual or physical cards with built-in spending rules and earn cash back with every transaction.
- Reimburse employees quickly and securely in almost any local currency.

Tailored payment solutions for every scenario

Whether you're just starting to optimize your payments program and looking for more control, or expanding into a new country, Emburse Pay has a comprehensive suite of solutions tailored to your needs.

INTEGRATED VENDOR PAYMENTS

Securely pay vendors around the world by ACH, virtual card, or check.

PHYSICAL AND VIRTUAL CARDS

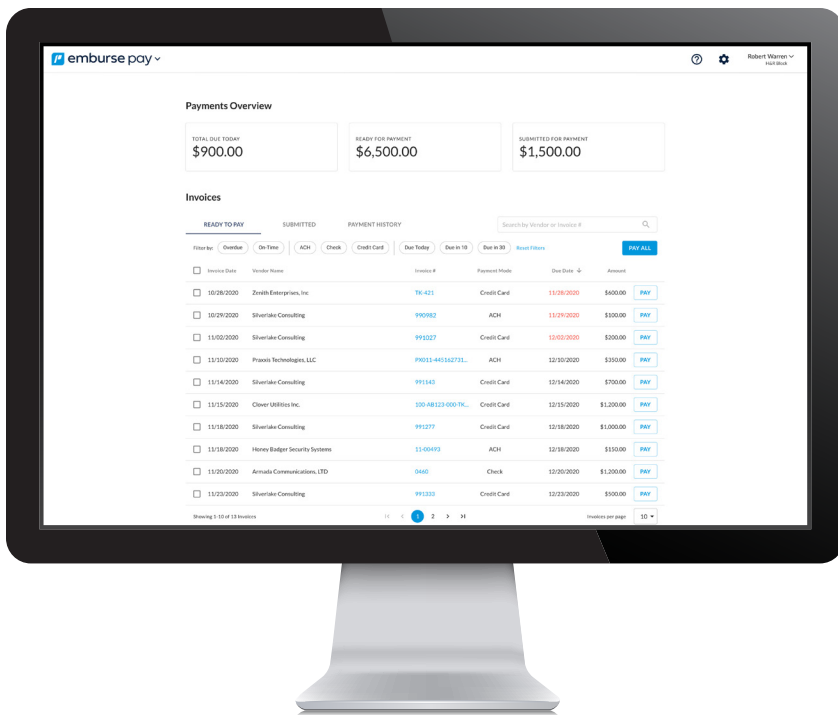

Issue policy-backed cards that control spend before it happens.

GLOBAL REIMBURSEMENTS

Pay employees back affordably and quickly regardless of local currency.

B2B Payments

Eliminate the need to manually sign, cut, and mail physical checks. Let our expert team enable your vendors to accept electronic payments on your terms—perfectly integrated with your finance systems. Spend visibility increases. Payments are made more efficiently. You'll realize an increased potential for savings through early pay discount programs and cash back rebates.

Emburse Cards

Emburse Cards offers a powerful way to track and control employee spending with instant virtual or physical cards for business expenses. Robust policy controls and predefined budgets let your finance teams better manage cash flow—all from our user-friendly card issuing platform.

Global Reimbursements

Reimbursing employees in their local currency can be complex. Exchange rates fluctuate every second. Bank transfer fees are expensive. Payments portals are tricky to use, and obscure payment status. Leverage Emburse to create a faster, cheaper, automated way to reimburse employees' out-of-pocket expenses, across multiple countries and currencies.
